

GREENMAX PLASTIC AGGLOMERATOR WITH SHREDDER

CUSTOMIZED DESIGN

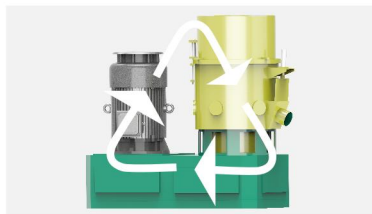

BEFORE ▼

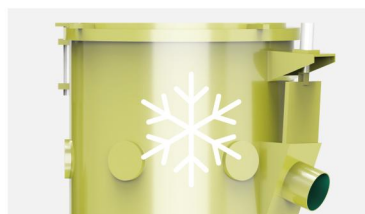

AFTER ▼

>>ADVANTAGES OF PLASTIC AGGLOMERATOR

> Widely applicable to multiple types of plastic

>Equipped with low-temperature granulation without any damage to the physical properties of materials

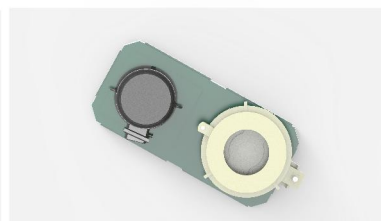

>Simple structure which is capable of fulfilling crushing and mixing simultaneously.

> Brilliant exhaust effect without bubbles.

> High production efficiency and low energy consumption

>Low space requirements with an exquisite footprint.

>APPLICABLE MATERIALS:

PP Film Materials	
PVC Film Materials	
LDPE Film Materials	
HDPE Film Materials	
Recycled Film	

> TECHNICAL DATA

ITEM	PLASTIC AGGLOMERATOR 400	PLASTIC AGGLOMERATOR 1000
Motor Power:	55kw	132kw
Production Capacity:	200-300 kg/h	400-500kg/h
Fixed Knife:	6	10
Rotary Knife:	2	4
Weight:	2,500kg	5,500kg
Output Mode:	Pneumatic	Pneumatic

>TECHNICAL DATA

Shredder	Rotary Shaft Diameter:	350mm
	Cutter Shaft Length:	850mm
	Rotary Knives:	39
	Cutter Shaft Speed:	60rpm
	Fixed Knives:	2
	Motor Power:	45KW
	Weight:	6000kg
	Dimension:	4150L × 1900W × 2450Hmm
Conveyor	Motor Power:	2.2kw
	Material:	PVC
	Width:	900mm
Plastic Agglomerator	Motor Power:	132kw
	Production Capacity:	400-500kg
	Fixed Knives:	10
	Rotary Knives:	4
	Weight:	5500kg
	Output Mode:	Pneumatic
