

GREENMAX[®] CARDBOARD BALERS WITH CROSS CYLINDER

> APPLICABLE MATERIAL:

> Specially used for compressing the waste like food residue, paper, plastics and textile etc. which widely applied by the vessels, hotels, resorts and factories etc.

> TECHNICAL DATA

Model	300L	500L
Pressure	30tons	50tons
Feed Opening Size (LxH)	1050x 550mm	1050x550mm
BalingChamberHeight	1600mm	1600mm
Bale Size (LxWxH , His adjustable)	1200·500·(500-1000)mm	1200·800·(500-1100)mm
Bale Weight	200- 400kgs	300-500kgs
Power	4kw	4/5.5kw
Machine Weight	2200kgs	2800kgs
Machine Overall Dimension	1800x1400x2225mm	1800x1400x2255mm

> FEATURES

1. Automatic bale ejector for quickly and easily ejecting the bales from the machine
2. Cross-cylinder design reduces the height of the balers, conveniently for transportation, installation and maintenance
3. The ram will stop running downwards when the feeding gate is opened which ensures the safety of the operation
4. Equipped with independent emergency stop for safe operation
5. Two hands are required for pressing the buttons when eject the bales out from the machine, ensures the safety of the operator
6. Equipped with Euro and U.S standard anti rebound gate structure which makes sure the safety of operation
7. PLC control system ensures the uniform bale weight

8.Special ram guides design makes the platen not slope because of uneven materials feedings during compression

9.Equipped with NOK seals that from Japan means longer lifespan of the seals

10.Equipped noise with design, A.M.C. ensures oil pipe the joints noise that no from more than Japan 70db ensures the machine far away from oil leakage problems Low noise design ,ensures the noise no more than 70db
